## Tutto è Made in Italy, tutto è Made in IMAC

Una storia di successo tutta veneta, un paese solo l'Italia, dove i prodotti sono concepiti e realizzati in un'unica sede produttiva. Dal 1964 siamo rimasti fedeli alla nostra identità con costanza e determinazione abbiamo avuto modo di farci apprezzare nel tempo anche dai paesi più lontani. Il grande vantaggio dell'Italia è la bellezza, e la bellezza genera bellezza come nel susseguirsi dei prodotti IMAC.

## Everything is Made in Italy. Everything is Made in IMAC

An all-Italian success story, in a country unlike any other, where our products are designed and manufactured in a single production site. Since 1964 we have remained faithful to our identity with dedication and determination and our products are appreciated even in the most distant of countries. One of Italy's greatest strengths is its beauty and this beauty is evident in all IMAC products.

## Tout est fabriqué en Italie, tout est fabriqué par IMAC

Une success story totalement Vénitienne, en Italie, où les produits sont conçus et fabriqués dans un seul site de production.

Depuis 1964, nous sommes restés fidèles à notre identité avec constance et détermination, et nous avons eu l'occasion de nous faire apprécier au fil du temps, même des pays les plus éloignés. Un des atouts de l'Italie est sa beauté, et la beauté génère la beauté comme dans la succession de produits IMAC.

## Alles Made in Italy, alles Made by IMAC

Eine Erfolgs-Story, in einem unvergleichlichen Land wie Italien. Hier werden alle Produkte entworfen, entwickelt und hergestellt an einem einzigen Produktions-Standort. Seit 1964 sind wir unserer Unternehmens-DNA treu geblieben, mit Hingabe und Entschlossenheit haben wir hohe Wertschätzung für unsere Produkte auch in weitentfernten Ländern geschaffen. Eine der größten Stärken von Italien ist seine Schönheit. Schönheit, die sich in allen IMAC-Produkten wiederfindet.

## Todo está hecho en Italia, todo está hecho en IMAC

Una historia de éxito completamente italiana, en un país como ningún otro, donde los productos se diseñan y fabrican en un solo sitio de producción. Desde 1964 nos hemos mantenido fieles a nuestra identidad con dedicación y determinación, hemos tenido la oportunidad de hacernos apreciar con el tiempo, incluso desde los países más distantes. Una de las grandes fortalezas de Italia es la belleza, y esta belleza se refleja en todos los productos IMAC.

## Все сделано в Италии. Все сделано в IMAC

Полностью итальянская история успеха, в стране, не похожей ни на одну другую, где наша продукция проектируется и изготавливается на одной производственной площадке. С 1964 года мы сохраняем верность своей идентичности и полны решимости в этом, и наши продукты ценятся даже в самых далеких странах. Одна из самых сильных сторон Италии-красота, и эта красота очевидна во всех продуктах IMAC.

## Ramo

Posatoio a forma di ramo con diametri da 10 a 14 mm, composto al 50% di farina di legno. Questo posatoio permette di variare continuamente la presa delle zampe rendendo l'utilizzo simile a quello che si trova in natura; in questo modo gli uccelli possono esercitare la muscolatura che con i posatoio tradizionali non userebbero.

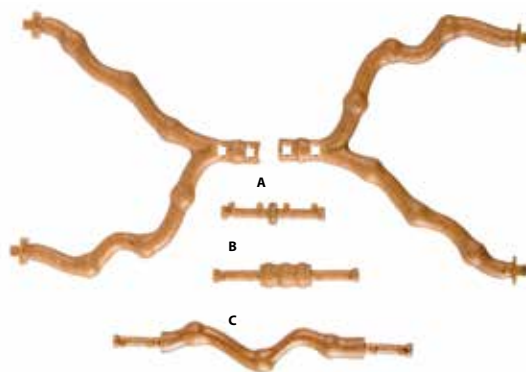

A branch shaped perch with a diameter from 10 to 14 mm, composed of 50% wood-flour. This perch requires the bird to continually vary the stance of its feet, like it would in the wild; this enables the bird to exercise muscles that it would not normally use with a traditional perch.

Perchoir en forme de branche de 10 à 14 mm de diamètre, composé de 50% de poudre de bois. Ce perchoir, grâce a son diamètre irrégulier, permet de maintenir la musculature des pattes des oiseaux comme dans la nature, ce qui n'est pas possible avec un perchoir traditionnel.

Eine Sitzstange in der Form eines Zweiges, 10 und 14mm Durchmesser, bestehend aus 50% Holz. Durch diese Sitzstange muss der Vogel permanent seinen Stand neu ausrichten, ganz wie in freier Wildbahn. Das trainiert die Muskulatur des Vogels, was bei traditionellen Stangen nicht der Fall ist.

Percha en forma de rama de 10 a 14mm de diámetro, compuesta de 50% de de harina de madera. Esta percha requiere que el pájaro varíe continuamente la postura de sus pies, como lo haría en la naturaleza; Esto permite que el ave ejercite músculos que normalmente no usaría con una perca tradicional.

Жердочка-ветка диаметром от 10 до 14 мм на 50% сделана из дерева. Представляет собой некий тренажер-имитатор, поскольку требует от птицы постоянной смены положения лапок, как это обычно бывает в дикой природе. Такая естественная тренировка мышц невозможна с обычной жердочкой.
